

## **Wonderful News from Hawaii**

Ileina Ferrier, Master Trainer, Hawaii, Feb. 2015

### **Greetings Dr Lam,**

In keeping with our motto, *Branching Out to Your Community*, and after several months of collaboration, it is with great pleasure that I send you the formal [press release](#) of the agreement between TCHI and American Specialty Health Fitness and Silver&Fit Program.

This relationship will support and grow our tai chi for health programs through a nationally recognized agency. As a result of ASH press releases, I have received several inquiries about our program, not only in Hawaii, but nationally. My workshops have received students as a result of the Silver&Fit's ability to market through their national network and locally.

Special thanks to Penny Bailey, ASH Senior Manager Education & Training, I look forward to an enjoyable future and continuing support to *spread the seeds of tai chi for health* in our communities
